six tons daily, is about to be started at Black Rock, near Buffalo. A new process of manufacturing called the "Meech process," whereby paper is made from grasses, is to be introduced. It is claimed that good printing paper can be made for four cents a pound. Mrs. MARGARET HAWLEY, who keeps a small newspaper stand inside the Fulton Ferry, New

York, makes a net gain of from \$125 to \$300 per week. In one day sixty dollars are often cleared. She has thus been able to educate her children handsomely, and to lay by more than forty thousand dollars. An officer in the army in the Indian country, sends a letter to a friend in Lockport, which contains the following cheerful passage: "I would

send you a lock of my hair, but I fear it would be a fraud upon the savages of this vicinity. There is a fair prospect that one of these noble red men will be my barber before Spring." For the week ending the 26th instant, National

Bank currency to the amount of \$104,275 was issued by the acting Comptroller. The total circulation issued up to date is \$300,907,896; actual circulation \$298,748,964, for which securities are held as follows: For circulation, \$340,514,000, and for deposits, \$38,761,450. broker, is the social lion of New York. Every day almost he delights that excitable community with some novel sensation. He has just started a sleigh, called the Monitor, which is described as little else than a beautiful boat on runners, with erect prow and graceful stern, miniature guns projecting on either side, both an ornament and defence. The crew consists of twenty ladies. The National Republican says: "We are author-

ized to announce that the President will hold his second public levee this season on Thursday evening, the 7th of February, and the third on Friday evening. February 22-to commence each evening at eight o'clock, and to close at eleven. We are also authorized to announce that the President's daughters, Mrs. Patterson and Mrs. Stover, will be at home on Monday afternoons."

A Rev. Mr. GILBERT HAVEN, in this week's Independent, has discovered a plan to settle at once all our political and social differences. The substance of it all is that "the nation must cease to use the words' 'freedmen,' and 'colored,' and 'white,' and know only that of men and brothren." Why cannot Congress declare by resolution that there are no black men, and that the notion is an optical

By the will of ELI W. GYNNE, the great "Cattle King" of Ohio, recently deceased, one son receives a farm of 8300 acres, worth \$50 per acre, and another a "small tract" of 2300 acres. By the provisions of the will, these large farms cannot be sold during the lifetime of his sons, and are to be constantly stocked with at least \$25,000 worth of cattle

The importations into New York during 1866, exclusive of specie, were valued in gold at \$297,000.-000. Some of the principal articles were as follows : Dry goods, \$126,000,000; sugar, \$21,581,117; leather, \$12,480,556; iron, \$5,180,163; lead, \$2,485, 840; molasses; \$3,616,165; earthenware, \$2,609,378; steel, \$2,949,349.

Prussia rewards her public servents with no niggardly hand. On Christmas Eve presents voted by the Prussian Chambers were paid over to various generals and statesmer Count BISMARCK received \$375,000 and the Prussian War Minister. Gen. Von Roon, Gen. Von Moltke, Gen. Von BITTENFIELD, Gen. Von STEINMETZ and Gen VOGLE VON FALKENSTEIN received \$150,000 each.

The debt of the United States may be set down in round numbers at three thousand millions of dollars. This, if all in silver dollars, weighing one ounce each, would amount to one hundred and twenty-five thousand tons, and would require a train of wagons, loaded with a ton each, three hundred and fifty miles in length, to draw it.

That skating has become f ashionable exercis is evident from the following statements as to the materials consumed during the present year in one skate factory at Worcester : two tons of brass, 5000 gross of screws, 50,000 brass thimbles, 1000 pounds of German silver, nearly six tons of rosewood, and ten tons of steel, worked up by thirtyfive men and women into 25,000 pair of skates. Great fortunes have not unfrequently been real-

ized by the invention of some toy for children which meets the approval of the juvenile critics. The inventor of the common street toy known as the "Return Ball" is said to "have realized \$100 .-000." The inventor of the "Walking Doll." which was so fashionable a few years ago, made \$75,100 by his patent. The dancing "Jim Crow" toy, introduced about two years ago, was invented by an invalid boy, and won a fortune.

amounts to upward of three-quarters of a million. which reach the capital in something like six thousand baskets, each of which contains a gross, and furnishes altogether on an average half an cyster per head of the population. The number of snails-now so favorite and edible with the Parisian gourmands as to have thrown the frog, the national delicacy par excellence, completely into the shade-brought daily to the Paris market, is not so easily ascertained; all one knows is that from Burgundy and Champagne, the great snail producing districts, upward of one hundred thousand are dispatched to Paris every day.

Opera House has been drawn by U. H. CROSEY himself. He held the 30,000 tickets which remain-ed unsold. The reports of other parties having drawn it are for the purpose of gaining time, and o allow the excitement to subside. The result lifts Mr. Croar from bankruptcy to a fortune of nearly a million dollars. There has been no complaint as to the fairness of the drawing. The twenty thousand dollar picture—the Yo Semite by Northern men as any one of the Northern States was during the last summer and fall.

CHARLESTON. THURSDAY MORNING, JANUARY 31, 1867.

WHAT CONSTITUTES A STATE!

We shall not answer the question in Sir WIL-LIAM JONES' sublime and thrilling lines. They would be out of place at this day and in this country. We only propose making some observations, and instituting a few comparisons, suggested by the events passing around us. Before the war we thought we had some idea of what were the necessary prerequisites to a Territory becoming a State of this Union. Now we must confess our ignorance on all these points; nay, we do not even know the number of States that at present comprise this Union, whether twenty-six, thirty-six, or thirtyeight. If the "Districts" lately known as the "Rebel" States are counted there are thirty-six, we beliove, in all; and if Nebraska and Colorado are President's veto, we shall have thirty-eight. And if so, the President's prediction, contained in his recent veto message, will doubtless be fulfilled, and we shall soon hear of the States of Idaho, cost of the war to that kingdom will amount to Novada, Dacotah, Washington, Arizona, etc., etc., for the "consent of the governed" appears to be oning the enormous losses suffered by trade and no longer a consideration with our law-makers at Washington. Given the merest Radical foothold in a State or Territory, the faintest hope of electing two Radical Senators and a ditto Representative, and the Territory at once becomes a State, whether a majority of the population of said Ter-TRIMBLE, of New York, acted as pall-bearers at ritory desire it or not. If the "nation" must have Territories, why let the "States lately in rebellion" occupy that position, at least until they are converted from the error of their ways, and shall have entirely abjured their late and present political

> But let us see how this process of regeneration is brought about, and how it works, after it is fairly in operation. Fortunately we are not without an example. The State of Tennessee affords a most lamentable illustration. We all remember her history during the war. There, alone of all the States of our late Confederacy, the revolution assumed the form of a civil war. The population of East Tennessee was hostile to the Southern cause, and the bitterest feelings, in many cases the most malignant hatred, were engendered between former friends and neighbors. With the end of the war, there was, unfortunately, not an end to strife. There is to-day no safety in East Tennessee for an ex-Confederate. He has not the shadow of a chance to obtain justice at the courts of the country. This assertion is based upon the testimony of an impartial witness. A few weeks ago we republished in THE NEWS along letter from the Knoxville correspondence of the N. Y. Times, giving the fullest particulars of the condition of affairs in East Tennessce.

We deeply regret that this should be the case, but cannot be surprised at it. With BROWNLOW for Governor, one of the most violent, malignant and unscrupulous political fanatics the world has four-fifths of the people disfranchised, and Radical emissaries continually at work to keep up and foment this strife, and Radical subsidios sent there to defray the expenses of such agitation,—the result cannot be otherwise. Yet Tennessee is held up to us by our Northern brethren as the model of Southern Republicanism, the pattern we must all follow. How the Constitutional Amendment was passed

last summer by the Legislature of Tennessee, our readers all doubtless remember. "Brigadier-Genoral" BROWNLOW is quite competent, and certainly not too squeamish, to pick him a Legislature of the "right sort," and enforce the presence of obstreperous members, in order to have a quorura. The Radical leaders need but tell him what is wanted at any time, and he will find the ways and neans to accomplish it. BrownLow will be a fornidable rival to B. F. BUTLER at the next Prosidential election.

It was this same Legislature that voted and recently presented a medal to Gen. Thomas for his callant defence of Nashville. The newspapers tell us that the day it was presented was observed as a great jubilee in the loyal city of Nashville. By a parity of reasoning, it is fair to infer that when we shall be a "State" our Legislature will vote medals to Gen. GILMORE for procuring those [Swamp] Angels' Visits for Charleston, -though they were neither few nor far between,-and to Gen. Sugn-MAN for his gallant defence of our capitol. But we hope the name of South Carolina will be blotted out before that day arrives. We shall prefer to read of South Carolina in hor glorious past, and let the new Radical miscegenated Legislature have

some other name for the reconstructed State. But let us look a little more closely into the modus operandi of this political regeneration. low is it done? Meetings are held in out of the way places, in the dead hours of night a strict watch kept at the door to admit none but the initiated. Four or five whites and twenty-five or thirty colored freedman compose the assembly. Of the whites present, not one, probably, will be found to be to the manor born. They are stranzers all-come here for the purposes of private gain. We deny them not the rights of citizenship, or equal rights of any kind; but we must think it reposterous for a few strangers, ignorant of the wants or wishes of our people, and certainly not in sympathy with any part of them, to presume to overthrow the existing government, and to dictate to 300,000 of their fellow-ritizens, the real people of the State, what their laws, etc., shall be. Wo know not what is the legal definitio; of a conspiracy; but, to our unlearned mind, this procedure locks precisely like a plot, or what we understand by the term conspiracy. A petition is drawn upit may be by a colored lawyer, or it may be by a white missionary-the petition is numerously signed and sent to Washington. Mr. SUMNER rises in the Senate, and presents the petition of numcrous respectable and highly influential citizens of South Carolina, asking that Congress establish a Republican form of government in that State. He will then pull forth several letters out of his left side coat pocket, which he has just received from republican friends residing in Charleston, which corroborate every statement set forth in the peti-

tion, etc., etc. We should like to know how much money has been sent here for this political converting purpose. It seems to be taken for granted at the North that Radical votes cannot be had without money. The following, in regard to Tennessee, The daily consumption of oysters in Paris is from a recent editorial article in the New York Evening Post,-one of the most moderate of Radical papers; and our readers will see from this extract that neither our fears, suspicions nor assertions, are groundless:

Tennessee is far away from us. One people are not familiar with all the details of the struggle for political ascendency which has been going on there. But it is necessary that we should take a lively interest in it. Money is needed there, for the support of the loyal press, which are vigorously and ably conducted; our ablest and most effective public speakers should go down there to address the people; Northern journals and docu-ments should be sent down there to all who will read; in short, it is the duty, as it is the interest A dispatch from Chicago, January 22d, says:

"It is satisfactorily ascertained to-day that the Opera House has been drawn by U. H. Crossy

Tead; in Short, it is the duty, as it is the interest of the Republican party, to make Tennessee, during this winter, spring and summer, the intellectual battle-ground on which, with voice and pen, we may assert and maintain the ideas which must
